AIR TEC'S CLASSIC

WITH FLUORESCENT LIGHT

Advantages at a Glance.....

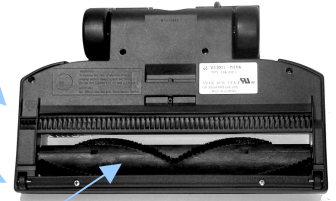

Its Contemporary/Ergonomic Design:

- ✓ **Long-lasting Bright Fluorescent Light** for operational safety and added convenience.
- ✓ **Big Soft Furniture Guard** for carefree operation.
- ✓ **Double-Swivel Neck with Lock in Rest Position**
- ✓ **Available in Black Color Only**

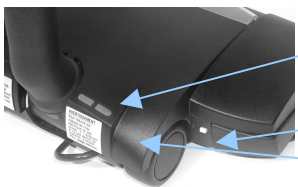

Outstanding Performance Features:

- ✓ **Channeled Base Plate** in combination with the adjustable brush height are features that increase air flow and add to the already outstanding cleaning power of the machine.
- ✓ **Micro Sweep Blade** for providing superior sweeping performance specially on hard surfaces.
- ✓ **Longer-lasting and Softer Double-V-Shaped Chevron Bristles on Roller Brush** for the delivery of deep cleaning of dirt embedded in all types of surfaces: carpeted, hardwood, ceramic tile, etc.
- ✓ **Glass-Fiber-Reinforced Cogged Belt** which reduces slippage and maintains constant speed for more uniform performance. Also, cogged belts are more durable than flat belts which minimize the need of regular replacement.
- ✓ **Quiet-yet-Powerful Motor.**
- ✓ **Motor Filter** helps prevent dust blow-back.

Built-in Safety Features

- ✓ **Manual Protective Motor Reset Switch**
- ✓ **Automatic Cut-Off in Upright Lock Position**
- ✓ **Foot-actuated Unlocking Key**
- ✓ **Automatic Height Adjustment**
- ✓ **Power Indicator Lights**
