Disposable Paper Bags

The AlleRx bag has THREE bag seals that completely prevent any dust and contamination from bypassing the Filtering System of the BK2000 vacuum. The bag itself is constructed of THREE layers of polypropylene fibers which are electrostatically charged to capture fine particles of dust, smoke, pollen...

AT1051C Case of AlleRx Bags (15 packs)

AT1051P Pack of AlleRx Bags (8 units)

Also available:

AT1053C Case of MeltBlown Bags (15 packs)

AT1053P Pack of MeltBlown Bags (8 units)

AT1049 Crevice Tool

Each toolset includes the Air Tec Crevice Tool for cleaning hard-to-get Places

AT1040 Upholstery Tool

Removes deep-down dirt from Upholstered furniture, drapes, and mattresses with the Air Tec convex power dome upholstery tool. Slots in the dome increase air velocity thereby increasing its cleaning ability without catching or damaging buttons or fraying the furniture.

BK1027S 3-Way Filter Assembly

Each layer in this assembly is a separate filter, when combined as an assembly, it effectively removes the MAJORITY of the dust and contamination from the air passing through the Filtration System of the BK2000 Vacuum.

White layer: Filtrete Filter.

Made of the same material as that used for incubators, respirators, and surgery applications.

Yellow layer: Virus Filter.

Made of fiberglass particles. Captures small particles such as viruses.

Black layer: Charcoal/Carbon Filter

With large absorption area (> 3 football Fields); this layer attracts and removes molecules found in over 400 different odors and gasses

AT1034 Floor Polisher

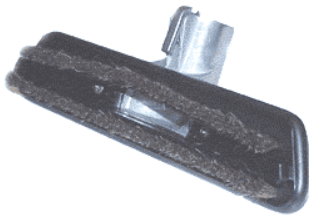

Wood, tile and hard-surface floors can be quickly buffed and cleaned with the Air Tec floor polisher.

Pressure created from the vacuum efficiently cleans wood and tile surfaces including hard-to-reach seams.

Conveniently clips on the Rug tool for easy rug to floor cleaning.

AT1001 Floor Tool

Hard-surface floors are easily cleaned by the Air-Tec floor brush. Step-cut horsehair bristles loosen dirt from crevices while the extra-wide tapered bottom plate picks up large particles without clogging. This brush has a molded rubber bumper with a special locking feature and will do an excellent job cleaning walls and ceilings.

AT1045 Vee Brush Duster

The unique Air-Tec Vee brush duster cleans those hard-to-get-at corners. Attached to the hose for regular dusting or to the curved wand, it is an ideal tool for cleaning above the windows and doors. Soft rubber construction with easily removable horsehair bristles protects furnishings.

AT1020 Rug Tool

Rug cleaning is easy and efficient with the Air-Tec Rug tool. Aerodynamically engineered vents, grooves, and wheels on the bottom plate ensure additional airflow. Horse hair toughed bristles can be activated by a simple twist of the wrist to pick up threads, lint or hair.

Metal Tool Carriers

BK1220 Metal Tool Carrier (Blue)
BK1215 Metal Tool Carrier (Green)

The metal tool carrier is designed to add convenience to your life.

- It stores ALL attachment tools that come with the BK2000
- It can be attached to the vacuum itself -BK's halo- for storage
- It can be easily removed as well.

It comes in two different -powdered coated- colors to match the vacuum canister.

Hoses for Canister Vacuums (6-FT and 9-FT)

Colors: white and black.

For tighter seal, Air-Tec includes the attachment hose-end gasket and the machine hose-end gasket in each hose package.

- BK1200 6-FT hose pkge
- BK1201 6-FT hose pkge color:black
- BK1210 9-FT hose pkge

AT1055 Round Brush

It is the perfect attachment for dusting chores.

It replaces the Broom and saves you money.

Its soft bristles are made of animal hair and can be easily and cheaply replaced.

Wands

AT1101 AirTec Lower Wand
AT1102 AirTec Upper Wand

**For durability.
For outstanding design.
For added convenience.**

The Upper (curved) wand and the Lower (straight) wand are designed to make it easier for you to move the attachment tool and reach every place you want to clean. It also adds durability to your hose because the curved wand prevents unnecessary bending of the hose.

Also Available:
SG1005 Wand for Sweep&Groom P.N.
DG1002 Wand for Standard P.N.
